

Have you TredXed your Institution ???

Learning is a continuous process (beyond the walls of schools and colleges) & this knowledge dissemination must happen round the clock continuously. Traditional methods of teaching can't meet this demand alone. It is therefore imperative that the Student/learner community have instant access to a vast array of learning resources & immediacy to information.

Modern Education is increasingly using technologies such as cloud platforms, mobile & internet facilities as a rapid communication tool. Every year more student choices are being offered with new programs & improved sources of educational content.

Answer is simple. TredX your Institution.

TredX is an elegant cloud based solution built by highly qualified & experienced Industry veterans. This complex but simple to use platform delivers knowledge on TAP – wherever, whenever. It is a collaborative & multimedia approach to education. More than ten thousand learners who have already gone through TredX can vouch for that.

How does it work?

As a first step, talk to us. We will set up a customized trial solution for you for free. Use it for one month to discover how it can meet your needs.

Satisfied ? We will move to next step. Have questions or concerns? No issue. We are always there for you.

As a next step, we will work along with your faculty & staff to build an education platform using TredX – real fast and at a fraction of cost you would have incurred otherwise. We will run it for you as long you want and hand over to you once ready. You can opt to do it yourself too right from the beginning.

Talk to our experts to understand our offering in more detail and ask for no obligation free trial. This small step will revolutionize the education process like never before!
