

Have you TredXed your Organization ???

You value your employees. You want them to stay updated all the time – be it on company products, markets, company policies and most importantly have right communication & domain skills. You have invested a lot on the resources and want to put best foot forward.

More importantly in this age of high mobility this knowledge dissemination must happen round the clock continuously. Old methods of training & development can't meet this demand.

Answer is simple. TredX your organization.

TredX is an elegant cloud based solution built by highly qualified & experienced Industry veterans. This complex but simple to use platform delivers training & knowledge in a jiffy – wherever, whenever. Over ten thousand employees who have already gone through can vouch for that.

How does it work?

As a first step, talk to us. We will set up a customized trial solution for you for free. Use it for one month to discover how it can meet your needs.

Satisfied ? We will move to next step. Have questions or concerns? No issue. We are always there for you.

As a next step, we will work along with your team to build training & knowledge platform using TredX – real fast and at a fraction of cost you would have incurred otherwise. We will run it for you as long you want and hand over to you once ready. You can opt to do it yourself too right from the beginning.

Talk to our experts to understand our offering in more detail and ask for no obligation free trial. This small step will revolutionize your training activities like never before!
